A Tribute to Silver Surfers

My computer swallowed grandma - yes, honestly, its true!
I pressed control+enter and she disappeared from view
It devoured her completely, the thought just makes me squirm
She must have caught a virus, or been eaten by a worm
I've looked in the recycle bin, and folders of every kind
I've even used the internet, but nothing did I find
In desperation, I asked Google, my searches to refine
The reply from them was negative, not a thing was found online
So, if inside your inbox my grandma you should see
Please copy, scan and paste her, and email her to me.

Get well wishes to any of our members who are not very well, get well soon and we look forward to seeing you back at the club soon.
